Call to Action

1. Introduction

In an era where businesses are under pressure to streamline operations and reduce costs, Avetium introduces a modern E-Procurement Solution built for African organizations.

Designed with compliance, speed, and flexibility at its core, our platform helps public and private organizations digitally transform how they buy, manage vendors, and track procurement activities.

With real-time visibility, vendor scoring, and automated procurement flows, Avetium ensures you move away from manual procurement into a world of efficiency and compliance.

2. Solution Features & Benefits

1. Smart RFP Management

- Create and manage Request for Proposals (RFPs) in minutes.
- Invite vendors, receive bids & compare responses in a structured format.
- Set deadlines, attach documents, and enable real-time scoring

2. Supplier & Vendor Lifecycle Management

- Vendor onboarding with document verification and classification.
- Auto-scoring, compliance checks, and approvals.
- Historical vendor performance records and status monitoring

3. Role-Based Approvals & SLA Control

- Multi-level approvals by department or authority.
- Set SLA timelines for actions like vendor registration, quotation submission & invoice approval.
- Built-in escalation matrix.

4. Centralized Procurement Analytics Dashboard

- Unified platform for requisitions, approvals, purchase orders, and vendor collaboration.
- Exportable reports for audit
- Real-time visibility into all procurement activities and spend.

5. Document Control & Sharing

- Upload contracts, SLAs, compliance letters, quotations & secure file access.

6. Mobile & Remote Access

- Web and mobile access for on-the-go approvals & tracking.

3. Commercial & Technical Details

- **Scalability:** Support for small business owners to large business owners and users
- **Integrations:** Zoho Books, QuickBooks, and more via APIs.

4. Case Studies & Testimonials

Case Study 1: Small Manufacturing Firm

- **Problem:** A mid-sized manufacturer relied on spreadsheets for procurement, leading to delays in PO approvals and frequent invoice mismatches. Vendor communication was manual, causing errors and strained relationships.
- **Solution:** Deployed the Avetium E-Procurement Solution with automated PO generation, a vendor management. Integrated with Zoho for seamless accounting.
- **Result:** PO processing time reduced by 40%, invoice errors dropped by 60%, and vendor satisfaction improved due to real-time updates. The firm saved 25% on procurement costs within six months.
- **Testimonial:** Avetium transformed our procurement process. What used to take days now takes hours, and our vendors love the automated process.

4. Case Studies & Testimonials

Case Study 2: Private Institution

- **Challenge:** Manual procurement led to quote delays and inconsistent vendor records.
- **Solution:** Avetium streamlined vendor onboarding, quote management, and contract approval.
- **Result:** 60% reduction in approval time and complete visibility over budget vs spend.

Case Study 3: Non-Profit Organization

- **Challenge:** Multi-location procurement with limited approval visibility.
- **Solution:** Avetium enabled centralized request tracking and multi-role workflows.
- **Result:** 75% fewer disputes and simplified documentation during audits.
